Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Art Unit: 3727

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2, 3 and 5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 2 recites the limitation "said undercut" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim 3 recites the limitation "said undercut" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim 5 recites the limitation "said undercut" in line 2. There is insufficient antecedent basis for this limitation in the claim.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5 and 8-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Letica ('080)(Letica 1), Letica ('805)(Letica 2) and Letica ('119) (Letica 3).

Letica 1 discloses the invention as best shown in Fig. 3, Letica 2 discloses the invention as best shown in Fig. 3, 5 and 7 (Fig. 3 and 7 are explained) and Letica 3 discloses the invention as best shown in Fig. 3 and 5 (Fig. 3 explained).

Letica 1, Letica 2 and Letica 3 disclose a plastic bucket comprising an upright, annular bucket wall (sidewall 22) having an inside wall radius and connecting to an annular lip, the

Art Unit: 3727

annular lip comprising a single annular wall portion extending upwardly from the bucket wall along a diagonal path (at inset wall 34), then in an upright vertical direction forming a first vertical wall section (connecting wall 30) having an outside radius and an inside radius, then outwardly in a generally horizontal annular flange (inset wall 36), and then upwardly in a vertical rim (that portion of the annular lip above second leg 41 and below bead 44 which includes portions of the arcuately shaped locking lip 46 at the inside rim wall), the vertical rim having an inside rim wall and an outside rim wall, the outside rim wall having a radius less than the inside wall radius of the annular bucket wall. Although no dimensions are discussed, it is readily apparent from Fig. 3, 5 and 7 that the relationship of the outside rim wall having a radius less than the inside wall radius of the annular bucket wall exists. All other radial dimension limitations are clearly shown.

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-5 and 8-9 are rejected under the judicially created doctrine of double patenting over claims 1-28 of U.S. Patent No. 5,913,446 to von Holdt, Sr. et al. and over claims 1-6 of U.S. Patent No. 6,098,833 to von Holdt, Sr., deceased since the claims, if allowed, would improperly extend the "right to exclude" already granted in the patent.

Art Unit: 3727

The subject matter claimed in the instant application is fully disclosed in the patent and is covered by the patent since the patent and the application are claiming common subject matter, as follows: A plastic bucket comprising an upright, annular bucket wall connecting to an annular lip to form an open bucket mouth, the annular lip extending upwardly and inwardly along a diagonal path.

Furthermore, there is no apparent reason why applicant was prevented from presenting claims corresponding to those of the instant application during prosecution of the application which matured into a patent. See *In re Schneller*, 397 F.2d 350, 158 USPQ 210 (CCPA 1968). See also MPEP § 804.

All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however,

Art Unit: 3727

will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
